FFEMS AT THE COURTS.

Four men were charged at the Magistracy this morning with gambling, which, The Company's Steamship it was stated, was a great nuisance to pedestriars in the street. A fine of \$2 [each, or five days' imprisonment was imposed.

The case in which C. Lauritsen is suing J. Brook for \$267.40 was to-day fixed for hearing on Wednesday; while the claim of Harold West against the Kowloon-Canton Railway Co. for \$100 was ordered to be put in next Friday's list.

At the instance of an European seven ricksha coolies were summoned this morning, for refusing to accept hire. It, appears that they refused to take the complainant and friends to Pekfulum last Sunday. The coolies were fined \$3 each. or seven days' imprisonment,

An American named . John Long, an officer on board the e.s. Rubi, hailed sampan yesterday to go aboard, when he was accosted by two Chinese revenue officers, who, having received certain informs ation, asked him to accompany them to the Revenue Office. There he was searched, 168 tacks of opium being found upon him. He was brought before Mr Melbourne at the Magistracy this morning, and he said that the opium was given to him by a Portuguese. A fine of \$500, or two months imprisonment, was indicted.

The old age Pension Act has led to many ingenious dodges. The other day the Castleford Magistrates sent a man to prison for 14 days for attempting to get on the Treasury roll unlawfully. It seems that he was detected through using an ink which was composed of a dyn not invented till 1867, but with which he entered his name in a prayer-book as born in 1839.

BEST LINIMENT.

CLIGHT accidents and injuries are a fru-Quent occurrence on the farm and in the work shop. A cut or bruise which is often the cause of much annoyance and loss of time, may be cured in about one-third the time usually required by applying Chamborlain's Pain Balm ns soon as the injury is received. There is no danger of blood poisoning resulting from an injury when this liaiment is applied before the parts become inflamed and swol on. For sale by all Chemists and Storekeepers.

ELLAMS "B. 19" ROTARY DUPLICATOR.

Has achieved a success unequalled by any other Rotary Duplicator. This is due to simplicity of working and the excellence of fitting of the parts. It has caused a complete revolution in Duplicating, and the production of perfect copies by the Rotary Machine is now a certainty.

From's well written original any boy can make thousands of copies on any paper; and each one will be perfect." There is absolutely nothing to go out of order, and the apparatus is always ready.

There is a mechanical device which allows the copy to be made in any maintain on The pressure-roller is regulated by a simple lever, and the arrangement is so made that it is impossible for the operator to have difficulty with his work.

.The printing cylinder is geared so that one turn of the handle makes a copy. A most important advantage ELLAMS "B.19" possesses is that the ink never rips and runs all over the Duplicator as on other machines. The ink never dries on the rollers or pads, and copies can be made on any kind of paper. Moreover, this ink does not utain the hands in any way.

There is no poculiar or complicated fastening of the stencil-sheet to the Duplicator.

The ELLAMS "B.19" Duplicator is so absolutely simple that it requires ho experience whatever to produce perfect enpire from it there is no calculating or Unscrewing of parts.

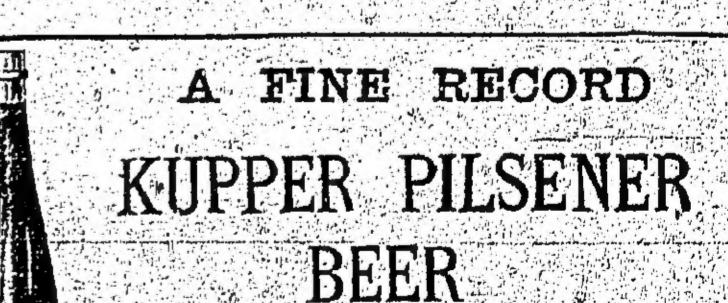

The Machine is fitted with an automatic Copy counter recording instantly the total

ble and compare most favourably with any Duplicator on the marker.

We stock three different kinds of this Duplienteer: L's Ror duplicating typewritten documents For duplicating both type and handwritten documents For duplicating both type and handwitten documents with self-feeding attachment Complete with all aupplies ready for immediate use. Considering the excellent workmanship of the apparatus, the priors are very tossons

SIG ALLING TO YESSELS. The Chairman said :- The report and some days, I will with your permission take them as read. Before proposing their adoption, I will as usual make a few remarks on the more important matters which have received the attention of the committee during the past twelve months. The first question in the report is concerned, with signalling to vessels which have taken refuge behind Stonecutters Island or in ward by a number of the commanders of local steamers, and, thanks to the action o. the Government and the courtesy of H.E. the General Officer Commanding and the debility Dr. Williams Pink Puls for Pale General Manager of the Standard Oil Co., arrangements have now been made to signal the latest storm warning to the

Another question relating to the signalling- which has engaged our attention was the advisability or otherwise of retaining the Red signals. After considerable discussion, it has, however, been decided to continue their use, at all events until the promised and much looked for wireless station has been erected on the Pratas

BRITISH DOCK STRIKE ECHO. You will notice that the serious inconvenience and in some cases, actual less last year. entailed on importers through the disastrous strikes of dock lahourers and others which occurred last year in Great Britain has been considered by the committee, who however, were of opinion that this was a matter which could better be dealt with by the importing firm communicating direct with his buyers, rather than as suggested by a joint circular from all the importing houses.

MATE'S BECEIPTS A very important point has been raised, viz., as to whether a mate's receipt could be considered a negatiable document. The committee, w thout pretending to be able to give an authoritative decision on the subject, consider that under ordinary circums ances such a receipt is not neces sarily a proof of ownership and could not be considered as a negotiable, document, unless the holder could show he had secured the receipt in exchange for value received

OPIUM MATTERS. The opium question was very fully dealt with in our last report, and, as you will have seen, correspondence on the subject up to May of last year was published in at report. As stated in my last annual address, the committee considered it advisable not to lay the correspondence before the members until mutters had been finally adjusted. In June, however, as you will see on reference to our present report, the matter was again brought for ward, as the Canton authorities were proposing to adopt another system by which they hoped to increase their revenue at publicity to the proposed scheme at the the expense of the trade and, usual, in defiance of treaty obligations. The disturbances which shortly broke ou resulting in a change in the personnel the provincial government has left th matter in abeyance.

DISISPECTION.

The possibility of disinfecting vessels land lighters by a Clayton machine has ANNUAL MEETING of SHARE again been rained by the Government, but, HOLDERS will be held at the Offices of as you will notice, the committee of here to Messes Janding, Markeson & Co., Lad., the view expressed some years son by their on SATURDAY, the 9th March, at 19.30 predecessors that the proposals put forward

The membership of the Chamber shows considerable number of changes, the total, however, being 145 as against 143

I have now dealt with all the more important questions set forth in our report. There are a few more matters which should like to touch on-

CHANGES IN THE HARBOUR

You will no doubt temember something peared in the local press recently as the necessity for dredging in the harbour In the opinion of the committee there is at the moment no such necessity, perticularly bearing in mind the hoavy cost which even partial dredging would involve. With the copening of the Panama Canal we will no doubt see very great changes in the ship. ping trade to the East, but it does not ollow that the draught of vessels calling at Hongkony will be very materially in creased. The matter will require watching and should it be seen that vessels are deterred from calling at Hongkeng through was to of sufficient depth of water in the anchorage a new survey will have to be made and a comprehensive scheme for dredging drawn up. This I need hardly add, would be a must confly enterprise; but if found necessary will have to be undertaken rather than Hongkong should risk a los of that trad by which alone she can

PROPOSED WIRELESS STATION. Although nothing appears in our report on the important subject of the erection of a wireless station it must not be supposed the question has been neglected. We understand that while the Naval Authorities contemplate erecting their own station steps are also being taken to set up a lower power station for commercial purposes This may not be quite so powerful as the station asked for, but it is possible if will prove sufficient for dur needs. The matter

is now under consideration and at the moment I am unable to my snything further. but the Government will be seked to give earliest possible date. BUSINESS PUBLICATIONS.

You will recollect that last year reference was made to the publication of a business directory for Hongkong. The material has now been pollected and we understand has been passed on to the Board of Trade by

the Hongkong Government." The Committee of the Chamber has recently been approached by the special commissioner of The Lin moio News, who is now-in the Far Hast, as to the publication of a special section dealing with the finan-

niel commercial and industrial development of Beng tong. This well known paper has already instead similar editions dealing with India. Australia, Canada, and other places, and as the committee believe the publicaprove of great benefit to the Golony, they would sake the members to be good enough to consider the proposals of Mr Maitland, the special commissioner, should that

gendleman call on thems THE SITUATION IN CHINA. Since our last meeting very great and startling changes have taken place in the Bropire of China, resulting in a newform of government and we trast what will shortly prove to be a more enlightened, progressive and civilized form of government than the older which has so auddenly been swept away. It is so recent that most, if not all, of us were listening to an able address from our friend, the vice-chairman, dealing with the present situation in China and giving so far as it was possible some forecast of what these changes may bring forth, that I fook it would be a work of supererogation, even if I could find it possible, to attempt any such forecast or to add to what he has alroady said. We are, I think, all agreed that we have as yet hardly done more than scratch the toads of China. With a

teformed and enlightwood government, able to control and fittingly direct the forces under them, we should see an enormous. increase in the foreign trade of the Empire which would so greatly benefit all concerned and more particularly the industriou sober-minded people of that great country. We can only trust that the work of settling the country and of bringing in a reformed government will be promptly and efficiently carried out, and that under the new regime we will no longer have to complain of the constant breaches of treety and acts of bad faith towards the Treaty Powers of which the Chinese Government have for so many years boon guilty.

· VICE-PRE IDE T'S DEPARTURE.

Although many changes have taken place, and are taking place. I am afraid my address to you has been rather fragmentary. have only one other word to add. Several changes have taken place in our committee during the past year. Amongst others we have lost the services of our Vice. President. Mr Keswick, who represents an old firm in the Colony. I am sure you all, as I do regret deeply his departure from the Far East, and wish that he wore with as still. He was doing as good work, if not better, than he is doing at Home. The only other change contemplated in the future is the departure of our present Vice-President, who has been's member of our Committee for several years, and, as we all know, has taken a wery prominent part, particularly of late, in the business life of the Colony I am sure you all sinceraly regret, as I do, his termination with the Far East. there words, gentlemen, I wish to propose

the adoption of the report. IMPORTANT PROSPECTIVE MATTERS.

Mr Dickson, in seconding the adoption 283 of the report and accounts submitted by the Chairman, said : In doing so I am thankful to say it does not devolve upon' me to pass in review order the many and varied themes dealt with by the committee. during the year that our interests are in reliable and capable hands is oblious and any enlargement upon the very interesting speech we have just listened to would be manifestly out of place. I need hardly, remind you of the trying and critical times our ancient neighbour has passed through in the last few months. There are still many rapids to be negotiated and matters of vital importance to this Colony are bound to arise but, as our Chairman has remarked, we look hopefully to the future. One thing is obvious: that our committee has the interests of the Chamber and through it the Colony at heart; that a watchful eye is being maintained and that our interest may with perfect confidence be entrusted to its vigilance. Before sitting down I would venture to remind you that the position of chairman is no sinecure Mr. T. Adair and that we are fortunate in the possession | Mr & Mrs Alexander Mr & Mrs C. Lauritof one who is able and willing to place his services, and wide experience so freely at | Mr 1" Anki our disposal and "I am quire sure it is the Mr F. A. Aron. wish of every member that our deep sense of obligation to the Chairman, Committee Mr & Mrs R. Bakes and Secretary should be placed on record. Mr and Mrs Barrett Mr J. C. Mance (Applause). Gentlemen, I have much pleasure in seconding the adoption of the Mr A. P. Blasson

Report and Accounts as presented. The motion was carried nem con. THE COMMITTEE. Mr Hough said he thought they could not do better than mark beir appreciation of the able manner in which their interests had been guarded during the past year Mr and Mrs A. W. than by re-electing the committee as it Dobbie stood. The names were :- The Hon. Mr Mr A. W. Edmands Mr C. A. Peal E. A. Hewett, C.M.G., Mr G. H. Med. Mr F. F. Edwards. Mr C. A. Percy hurst, Mr F. H. Armstrong, Mr J. W. C. Mrs Ehrhardt and Mr H. Piesbergon Bonnar, Mr G. T. Edkins, Mr G. Friesland, Hon, Mr C. H. Ross, Mr H. A. Siebs, Mr E. Shellim, and Mr N. J. Stabb. Mr Mr E. A. Elonies. Hough added that they were gentlemen representing leading firms and men of ripe Mr A. Harper

to propose them en bloc. Mr Bolles seconded; and the motion was Mr F. Helms. On the motion of the chairman; seconded Capt & Mrs W. Mr Medhurst, the following firms were elected members of the Chamber :- Mastra Arculli Bros., Messre arl Bodiker & Co., Mr. and Mrs W. Messrs Garner, Quelch & Co., Messrs The Kraft Nestla Anglo-Swiss Milk Co. London, Mesers Moxon & Taylor, and Mesers

Thomas Cook & Sons The Chairman, at the conclusion of the meeting, thanked the members on behalf of Mr. T. M. Ball the Committee for the honour they had conferred upon them in re-electing them as mark of appreciation for what they had. done during the year.

SCOTTISH SPORT.

(From Our Own Correspondent.) EDINBURGH, February 6.

All the Rughy matches in Scotland were declared off owing to frost and snow. At Swanses, Wales maintained the sequence of successes achieved over Scotland in Wales since 1892, and after first match, gained a victory by two goals, two dropped goals, and a try (21 points) to two tries (6 points). Scottish critics, althoughadmitting that Wales won on merit, assert that three tries to two would more. accurately reflect the run of the play. The sides, they say, were evenly matched, and the success of Wales was due rather to the luck of the game than to any decided superiority.

Bad judgment by the Scots, the result of over anxiety and that peculiar effect which Wales always exercises over its opponents, was too often in avidence, especially in the final phase of otherwise admirably executed movements, either by the backs or by the backs and forwards. In this respect Pearson was the chief offender. He more than once passed inwards when he should have given the ball to Will on the outside; while he twice lost certain tries by failing to pass to Will the moment he. got the ball. In each case Will was un" marked and had only a few yards to go. But Pearson did much good work, though he was overshadowed by Angus, who for the first time did his powers full justice and was much the best three-quarter in the fiold. He was equally good in defence and in attack, and never made a mistake. Will deserves almost as high praise. Some of the Scottish passing advances were up to the highest Welsh standard, particularly the two movements which yielded tries Hickson, though fielding and kicking well, showed occasionally his characteristic fault

of failing to find touch, The Scottish forwards exceeded expectations so far as their all-round display was concerned. They were superior in the fight to the heavier Welsh forwards, and packed finely, while they got the larger share of the ball. Their footwork, was excellent, though marred by a tendency to kick too hard and too little across when it came to them almost clear. Their marking out of touch was not always accurate, but they often got the ball, and had it down and away very quickly. Scott was easily the best forward. Indeed, he was the best forward in the field. He was always near the ball, and was as useful in defence as in attack. Purvis, Bain, Howie, and MacCallum were also prominent, while every man was a trier. Both packs lasted well through a hard match; and the play was fast, open, and clean,

ASSOCIATION. In the old times, Association would never have been attempted under the condistions of frost which existed last Saturday, But the grounds are now kept in such state of perfection that play is largely. a question of rubber stude on the footgear.
